

Environmental Policy

It is our aim to reduce, reuse, recover and recycle the majority of our clients' waste to their benefit and to that of the environment. In doing so we aim to offer the best Management, Handling and Logistical service, based on regional availability of service provision for a wide and diverse range of waste streams.

In carrying out its activities GPT Waste Management Ltd is committed to improving the environmental performance of the company, by effective management of the environmental aspects arising from its activities, in order to minimise any impact, they may have upon the environment.

GPT Waste Management is committed to:

- É Continual improvement of its employees' education on environmental issues.
- É Continual improvement of its environmental performance and the prevention of pollution by annual review of its environmental objectives and targets.
- É Complying with applicable environmental legislation and regulations and other requirements to which we subscribe, relating to our environmental aspects.
- É Involving our Business and Resource to assist in appropriate Government and Waste Industry environmental initiatives (WRAP, CIWM, IEMA, EDOC, Right Waste Right Place Campaign etc.).
- É Complying with the requirements of the BS EN ISO14001:2015 Environmental Management System standard.

GPT Waste Management will:

- É Communicate the policy internally.
- É Make the policy available to interested parties including the public.

To reduce its significant environmental aspects, GPT Waste Management shall seek to:

- É At best eliminate waste at source or recycle waste materials
- É Reduce and minimise the consumption of energy
- É Reduce and minimise the use of natural resources
- É Encourage the use of environmentally sound products and services from their suppliers
